

Chesapeake are looking forward to texting next Sundays XC. The course will be the same as last year with the starting finish near to the community centre. The course is a mixture of good fast running, rough grassland, wooded areas and water. Approx 4.5 miles with two laps.

Based on today's inspection it's very wet and muddy. The large puddle (just under knee height) is back at the Aldi entrance of the course. We will be holding the remembrance silence before the fun begins.

Could we ask please that you remind all of your club representatives to be courteous in their parking as we have had people block the entrance drive previously. On road parking is also available on Parkside Road (DE21 6QQ) which can be accessed by going to the end of Maine Drive and turning right at the island. You will see the park on your right approx 100 yards down with the community centre being a short stroll away across the park.

Course from Colin's Strava (4.37 miles):
