### Information for BDL Teversal 16th April 2024

The parking bit is important as we have had to cancel holding the AAA at this venue due to issues with irresponsible parking. Please note the parking is in a field which may present its own problems on race day so follow guidance given by car park marshalls.

Arrangements for Race Day.

Car parking is in the field which can be accessed by Coppywood Close (not Carnarvon Street). Do not use the main Visitor Centre car park as this is reserved for football and other users. Do not park on the streets leading up to the venue as this has previously led to future events being cancelled due to complaints to police. Please car share if possible, as a high turnout is expected.

**Race start is 7.15pm** so please allow time to get to start as it is 5 minutes walk from the car park.

Toilets are available in the visitor centre and the bowling club opposite, please use them with respect. The visitor centre will also be open for refreshments.

The start is at the old railway station platform a few minutes walk from the visitor centre and the finish is on the grass at the side of the visitor centre car park. The Finish line is at the start of the funnel where the timekeepers will be positioned. Tokens will be handed out at the end of the funnel.

The course will be marshalled and there are a couple of roads to cross so follow marshalls instructions. At points on the course where roads are crossed follow paths up to gates and also down other side to trails.
